
SPLITBILL APP

Cynthia Widjaja and Nathaly Cobo
Project Management- MGT 575
August 2023

Introduction to the project

SPLITBILL APP

It is all about **making life easier** when it comes to **sharing expenses** with **friends, roommates, and groups**

We're **creating a cool mobile app** that'll take the hassle out of **splitting bills** and **keeping track of expenses** for everyone.

We're **integrating the app** with popular platforms like **Zelle, Venmo, Paypal**, and even the option to **scan credit cards**.

You can pay up or get paid back with the tap of a button!

 **PayPal**

venmo

zelle®

Monitor Plan:

- Set clear KPIs.
- Use regular communication and reporting to monitor tasks and milestones.
- Compare actual progress to the plan and review resources and team performance.
- Address deviations, risks, and issues.
- Ensure quality assurance and testing.
- Keep stakeholders informed.
- Analyze KPI trends and adjust the plan as needed.
- Provide timely status reports.
- Learn and improve iteratively.

SPLITBILL APP

Thank you

A group of people are seen from behind, sitting at a dark table in a dimly lit room. They are looking out a large window at a city skyline. The most prominent feature in the skyline is a large, ornate building with a white dome, likely a state capitol. Other buildings of various heights and styles fill the rest of the view. The scene is captured in a cinematic, slightly desaturated style with soft lighting.
